

Maura Segal

Biography

"I'm a Los Angeles based artist whose inspiration is drawn from modern architecture and minimalism. In my work, I juxtapose layers of paper with acrylic paint and a layer of thinly hand-cut paper strips insinuating the volume of three-dimensional sculptures. I explore the contrast between negative and positive spaces, the counterpoint between lines and shapes and the coexistence of two- and three-dimensional planes." – Maura Segal

Present Lives and works in Venice California

1992 B.F.A. in Graphic Design, California State University, Northridge
